

Kelly Macleod

Occupational Therapist

Professional Qualifications:

BSc (Hons) Occupational Therapy York St John University 2009

Verified First Contact Practitioner 2023

Professional Memberships:

HCPC OT59814

RCOT BT0238749

Personal Profile:

Skilled Occupational Therapist with 15 years' experience in various settings, predominantly within acute and neurorehabilitation services and more recently as a verified first contact practitioner within primary care. Committed to delivering personalised care supporting clients to achieve outcomes which are meaningful to them, through building effective therapeutic relationships and engaging in shared decision making. I am currently working as an associate OT with Positive OTCM, working with clients who have sustained traumatic brain injuries and other life changing complex injuries. I am passionate about working alongside my clients, their families, loved ones and employers to optimise their recovery post injury, maximize independence and ensure that they go on to live a fulfilled, purposeful and enjoyable life.

Professional Work Summary:

- March 2025 – Present - Neuro Occupational Therapist Positive OT & Case Management Ltd.
