#### Personal Profile:

Sheryl is a Registered Nurse with over 23 years' experience in clinical practice. Her nursing experience has included general medicine, spinal nursing, gynaecology and orthopaedics. In particular, she acquired over 13 years' experience within a neurosciences environment at ward, management and specialist level.

Sheryl possesses vast knowledge in the management of people with long term neurological conditions and complex care needs, including end of life care. Sheryl has considerable experience of liaising with the multidisciplinary team both within the hospital and community setting.

Since moving into case management in 2015, Sheryl has extended her areas of expertise to include the assessment and management of clients with birth injury, orthopaedic injury, poly trauma and dual diagnosis. Sheryl specialises in the area of brain injury and managing complex behaviours in both children and adults.

Sheryl's experience and broad knowledge base enables her to undertake a thorough assessment of each client's needs. She works collaboratively with the client to establish individual rehabilitation plans that are evidence based and goal orientated. She has a positive attitude and works efficiently to ensure that her clients' needs are fully met in a timely manner. She is able to prioritise her workload and respond appropriately to clients presenting with a crisis. Sheryl is experienced in recruiting and managing support teams on behalf of clients and their families.
